## Equipment for simultaneous translations and interpreters

Whether 1 person or 1000 people need translation, its quality will determine the guests' impression of the event. This is why we are very careful when we select our team of interpreters. Only the most talented, competent, experienced specialists will translate for your guests.

The efficient rendering of a message also depends on the quality of the technical service. Berlizzo offers its clients the most effective translations equipment and qualified technicians able to immediately solve any unexpected problem that may occur.
